British Business Awards – Michael Bradley Architecture

I understand Michael Bradley Architecture is a finalist in this year's BBA's and I wanted to provide a letter to support MBA's application.

As Chairman of the Construction Focus Group, I believe the Chamber is already well aware of Mike's proactive approach to promoting and developing British business and capabilities in China. He has joined the FG Steering Committee and brought his customary enthusiasm and professionalism and is helping to take the FG forward with constructive input on events and how best to engage the membership.

As Country Manager for Gleeds China, I also can highlight some aspects of MBA's work which are very relevant to their BBA application. Gleeds China has worked with Mike and his company on Grosvenor's first mainland China project. In delivering his service to the client and working with our team, Mike not only delivered excellent service to the client and supported Gleeds, but he also took an idea from a portable electronic system being used in the UK, developed it further and successfully applied it to the Grosvenor project. We have been so impressed with this approach & system that we are now working with Mike and his team to improve our own systems by transferring them to electronic formats on handheld devices. Mike and his team also worked tirelessly on behalf of Grosvenor to identify creative solutions to challenging issues on the project.

Hence I have no hesitation recommending Mike and the MBA team for the BBA.

Kind regards,

A handwritten signature in blue ink, appearing to read "R. Chisnall". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Ray Chisnall
Country Manager
Gleeds China
